

Dear passengers,
due to potential occurrence of the coronavirus infection, we would like to inform you about the measures we have taken for your increased safety while travelling by city transport in Brno:

boarding and leaving buses and trolleybuses through the first door is no longer allowed, access to the front part of these vehicles is restricted

more intense vehicle disinfection during the everyday cleaning

vehicle ventilation at the termini

opening the doors will no longer depend on pushing a button – the driver will always open all doors at any stop; passengers still must inform the driver about their intent to leave the vehicle by pressing the button at a REQUEST STOP or when getting off with a pram, a wheelchair, etc.

tickets will no longer be sold by drivers in zones 100+101 (i. e. this does not apply to regional buses equipped with cash registers operated by the drivers)

the ticket inspectors will serve as informers and will check validity of all tickets and passed by visual inspection only, without physical contact with the passengers and their personal ID documents

we recommend you use the electronic tickets; accordingly, the deadline for personal data verification in the case of pre-paid travel pass purchase is extended to 40 days

please follow all current recommendations of the Ministry of Health of the Czech Republic and the South Moravian Regional Hygienic Station

Your Public Transport Authority of the City of Brno
